## BASSINGER JURY LOCKED TEN HOURS

### DODSON RESIGNS FROM EDUCATION BOARD IN PROBE

Two Alleged Fraudulent Teacher Permits Are Disclosed Today.

### MONEY FOR CAMPAIGN

Certificates Exchanged for \$200 Donation To Battenberg.

(By the Associated Press)  
OKLAHOMA CITY, July 8.—Resignation of W. F. Dodson, secretary of the state board of education, was announced here early today following an investigation which disclosed two alleged unlawfully issued teachers' certificates in the hands of two negroes. The certificates were delivered by W. R. Clark, of Norman, former school superintendent of Cleveland county, to a Dr. Wakefield, negro physician of Bistow, Clark admitted in an affidavit made public. Clark declared in the affidavit that Dodson had procured the certificate for him, which in turn he (Clark) had given to Wakefield in exchange for \$200 as a contribution to the campaign fund of J. P. Battenberg, candidate for superintendent of public instruction, of which campaign, Clark was then in charge.

Secretary Dodson declared that the certificates were issued to Clark upon the promise that he would submit the necessary credentials in the future. He said the credentials had never been delivered. Clark stated in his affidavit that he thought one of the certificates had been for Mrs. Mattie L. Alex, but the other he could not remember the name. Battenberg knew nothing of this transaction, according to Clark.

**Robertson Absent.**  
Both Governor Robertson and R. H. Wilson, state superintendent of public instruction, were out of the city today and there was no indication as to Dodson's probable successor. Neither could Attorney George F. Short be reached for a statement.

The inquiry into the alleged unlawful trafficking in teachers' certificates was ordered by Governor Robertson on June 6, following receipt of a letter to the governor signed "Donoghue," which charged that large numbers of certificates had been sold in Creek county for prices ranging from \$50 to \$100 each.

Operatives of the attorney general's department were immediately put on the case and later Superintendent Wilson ordered the department of education to proceed with a separate investigation.

**Appointed Last April.**  
Dodson was appointed secretary of the board last April.

In a statement issued today Clark denied that the money had been given him as a contribution and declared that he had been influenced in signing a previous statement to this effect by H. H. Edwards, Mr. Wilson's campaign manager for the gubernatorial nomination, and W. A. Ledbetter. These men, Clark said, told him four days ago that his acceptance of the \$200 was in violation of the law and that he was in danger of serious prosecution.

He argued with them, he said, that he was entitled to the money inasmuch as he had spent considerable time in assisting the two negroes to whom certificates were issued "in order to prepare them to make a showing for the certificates." Edwards and Ledbetter led him to believe, Clark charged, that he would be relieved of criminal responsibility should he sign the statement that he had received the money as a campaign contribution for Battenberg, so he affixed his signature to the statement which they prepared for him.

**Battenberg Innocent.**  
"The fact remains that my services (to the negroes) were honest and legitimately rendered," Clark said in his second statement. The chief purpose of this statement is to say that Mr. Battenberg had no knowledge of any of the actions and I received no money from these parties which in any way went to his campaign fund or was used in his behalf. I have never been authorized to make any collection for Mr. Battenberg's campaign fund and never had any thing to do with the financing of the campaign.

An oyster enlarges its own shell.

### Gerard Thinks He Was Marked Man For German Bullet

NEW YORK, July 8.—James W. Gerard, former American ambassador to Germany, came home today from a nine weeks European trip, firm in the belief that had he gone to Germany the group of assassins who killed Dr. Walter Rathenau, German foreign minister, would have fired at him.

He said he received from Mr. Rathenau several newspaper clippings asserting that he should not be allowed to enter the country. He was assured by Rathenau, he said, that the clippings represented "only silly utterances of the newspapers."

### ADA GUARDSMEN LEAVE TUESDAY FOR FORT SILL

Two Local Outfits Ready to Take First Summer Encampment.

100 MEN WILL LEAVE

Orders for Entertainment Cause Activity in Soldier Ranks.

Ada's two companies of national guardsmen will leave Tuesday morning, July 11, for Ft. Sill on their first annual summer encampment. They will be gone 15 days, which time will be spent in camp at the state field artillery reserve, where instructions in the training of guardsmen will be given.

Captains Robert S. Kerr and James H. Hodges, commanding Battery F, 160th Field Artillery and Headquarters Company, 189th Field Artillery, respectively, will accompany the men. A special train will carry the more than 100 officers and men, together with equipment.

Orders were issued this afternoon to all members of Battery F to report for duty at 1 o'clock Monday afternoon, July 10. Headquarters company men have already received orders to report for duty at 8 o'clock in the afternoon of the same day. Men when reporting at these hours will be required to be ready to entrain.

As soon as the train can be loaded Tuesday morning, it will leave over the Santa Fe for Chickasha, and from there will proceed on the Rock Island to Ft. Sill. The men will arrive home on the afternoon of July 26. All members are required to go on the trip and many of the men, who are regularly employed at various business houses in the city, have made arrangements for the 15 day period. Several men who have been working out of town began arriving today to report for duty.

**Companies Complete.**

Both companies are now fully organized and equipped. Battery F will take all its equipment, excepting field wagons, horses, personal and general equipment, excepting the four guns. Headquarters company will be required to take a number of motor machines, general and personal equipment. All men of both outfits will sleep at the guard armory on North Broadway Monday night.

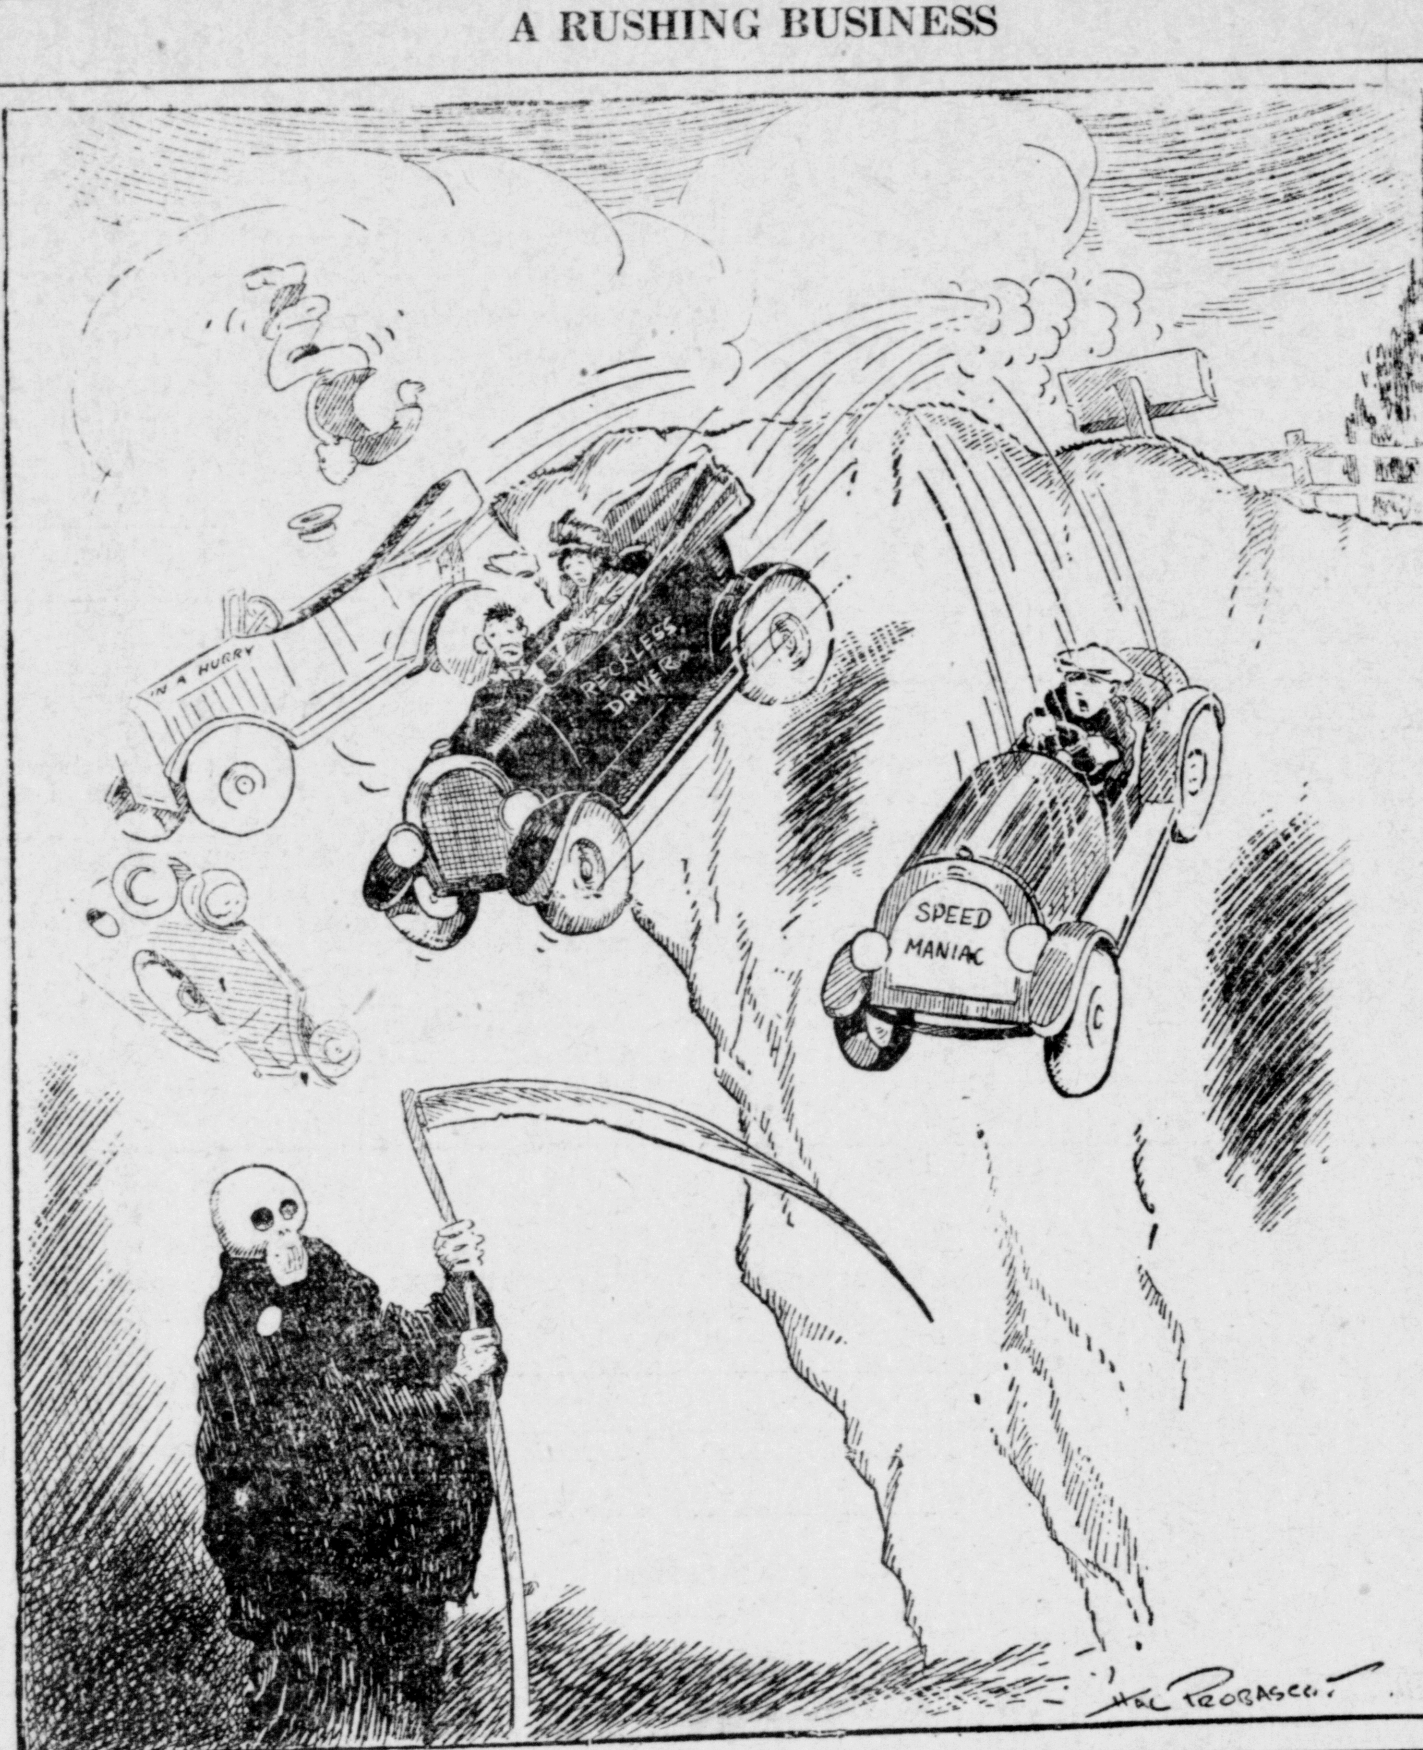

Orders for the entertainment and programs for the camp work have already been received by Ada commandants. Men will be required to get up at 5:30 each day, and the day's work will include a few hours of drill, setting up exercises, special duty and policing of the camp. Most of the time, however, will be given over to the regular work on the artillery range fields.

Good meals and good shelter will be provided. Time will be given for the guardsmen to enjoy themselves while at camp and along with other equipment they will be permitted to take fishing material, bathing suits, kodaks and other personal belongings.

**To Welcome Visitors.**

Each company will have special tents which will be open to any citizens of Ada who desire to spend a day or two at Ft. Sill watching op-

### HARDING TO FACE STRIKE PROBLEM

Executive Hurries Back To Washington Today To Hear Details.

(By the Associated Press)  
En Route with President Harding  
Uniontown, Pa., July 8.—After a week's absence from the White House, President Harding expected today to be back in Washington by evening. A 225-mile automobile ride, most of it up and down mountains, faced him as he left today, left Uniontown.

It is expected that the president's attention, on his return will be directed to the coal strike. Negotiations between operators and representatives of the striking miners having come to a halt, it is thought that he will lose no time in getting first hand reports from Secretary Hoover.

While away from Washington, the president had received information from the capital on the subject, and while in Marion and Columbus, discussed the situation with Attorney General Daugherty, but it was said that course to pursue.

The president was given an ovation by coal miners who lined the roads as he drove from the Ohio capital to Uniontown.

### Union Heads Appear Today in Answer To Anti-Strike Charge

TOPEKA, July 8.—T. Hunting and Thomas Hillery, president and secretary-treasurer, respectively, of Local No. 11 of the federated shopmen's union, against whom warrants were issued yesterday, appeared with their attorney in the court of Topeka shortly after 10 o'clock this morning. Marshal Tom Hurley served the warrant on them. The complaint charged the two with violation of the anti-strike provision of the industrial court act.

Of the two warrants issued at Topeka charging violation of the anti-picketing provision of the industrial court act, one has been served on Thomas Personette, general chairman of the carmen's union of the entire Santa Fe system.

Other warrants and arrests are expected in connection with the announcement yesterday that all crafts union officers in Kansas who signed or transmitted the July 1 strike order are subject to prosecution under the industrial act.

### HAMBONE'S MEDITATIONS

DEY USETER 'REST FOLKS FUH STEALIN' BUT 'PEAKS LAK NOW' DAYS HITS MOS'LY FUH LARS'NY!!

**Weather**  
Partly cloudy tonight and Sunday.

### ADA FEELS FIRST PINCH OF STRIKE

Katy Passengers North and South Called Off Beginning Tonight.

First effects of the strike of railroad shopmen's union employees were felt in Ada today when announcement was received by local M. K. & T. officials that 5:45 a.m. north bound passenger train and the 10:19 p. m. southbound passenger train would not be operated beginning tonight.

M. M. Harwell, local agent, said he had received no further instructions and did not know or have any idea how long the discontinuance of these two trains would last. Tonight's Katy will not run, the first local train to be taken off on account of the strike. Reports from other roads were to the effect that service would be continued as usual.

Judge R. W. Higgins of McAlester candidate for the Democratic nomination for Lieutenant Governor, was in the city today in the interest of his candidacy. Judge Higgins is well known over the state and reports favorable consideration at the hands of the voters.

### KATY TRAINS MAY BE DISCONTINUED

43 Locals in Three States Must Stop Because of Shopmen's Strike.

(By the Associated Press)  
ST. LOUIS, July 8.—The Missouri Kansas and Texas railroad company today announced the discontinuance of the operations of 43 local trains in Missouri, Oklahoma and Texas, "due to the physical impossibility of getting locomotives in and out of roundhouses and fear of consequences that might result if efforts were made to employ workmen not affiliated with the union."

The roundhouse at Sedalia, Mo., has been abandoned, the announcement by C. E. Schaff, receiver, stated, and the trains will not be operated until definite assurances are received from the governor's office that new employees would be protected and until there are guard on duty to protect them. Eight of the trains are in Missouri, twelve in Oklahoma and twenty-three in Texas.

(By the Associated Press)  
SEDALIA, July 8.—Local passenger trains on the M. K. & T. railroad, which have been made up at this point did not go out early today, owing to a strike of laborers at the road roundhouse here. No fires had been started in the engines. Company officials announced an indefinite delay of trains.

### Private Killed and Three Injured When Gravel Bank Slumps

(By the Associated Press)  
LAWTON, July 8.—Louis C. Maersche, 21, was killed and three others were seriously injured when a gravel bank in which they were working caved in today at Ft. Sill, near here. The injured are John R. Wilson, 20, McComb, Okla.; Tom J. Wood, 20, Wyoming; N. J. and P. A. Smith, 24, Wyoming. N. J. All were privates in the army stationed at Ft. Sill.

All the injured are expected to recover, according to physicians at the military hospital at Ft. Sill, where they were taken. Officers said Maersche's nearest relative is a brother living at Moulton, Tex.

Russians and Hindoos credit the tourisque with being a life preserver.

Metal was discovered in Egypt about 4000 B. C.

### Veterans Enforce Respect for Flag By Smashing Hats

CHICAGO, July 8.—Blood was shed and hats were smashed when members of the Veterans of Foreign wars, escorting Chicago Elks to the railroad station on their way to Atlantic City, enforced respect for the American flag which was carried in the parade. Frank R. Kerzmann, a color bearer, was the prime mover in forcing onlookers to remove their hats. He was reinforced by several curb-speakers. Several dissenting spectators were badly beaten. A negro who refused to remove his hat was knocked unconscious.

### SHOPMEN SPURN TO TAKE FINAL PATH TO PEACE

Strikers Stand Decidedly Against Course Held Out by Board.

### JEWELL WON'T START

Shopcraft Leader Holds Roads Are To Blame For Walkouts.

(By the Associated Press)  
CHICAGO, July 8.—Railroad shopmen entered the second week of their strike today with no apparent inclination to follow the lone avenue to peace held open to them by the United States railroad labor board.

The board stood on the position taken by Chairman Ben W. Hooper, that the only way the strikers could receive recognition in conciliatory conferences was to restore themselves to a good standing before the board by returning to work.

B. M. Jewell, head of the shopcrafts, who held himself open to approach by "any responsible person authorized to negotiate a settlement," declined to make the first move, preferring to place the blame for continuance of the strike upon the labor board and railroads.

The railroads remained immovable in their attitude of considering the strike as against the government rather than against the roads.

**Restlessness Grows.**  
Conditions generally, so far as transportation and shop operations were concerned, remained much the same but the beginning of the second week of the strike brought increased restlessness among the strikers and outbreaks in scattered railroad centers.

Storm clouds of strikers in their irregular movement over the country apparently centered for the moment over Illinois and Missouri, New disorders broke out in Chicago, where mobs of striking shopmen and sympathizers continued terrorism and workers and suspected strike breakers.

Seven men suspected of being strike breakers were pulled from a street car and beaten and homes of the workers were being attacked and hails of sticks and stones soon became so numerous as to do considerable damage to property.

The Chicago and Alton was one of the worst sufferers from the growing spirit among the strikers to enforce abandonment of shop work. Suspension of shop work on the Alton was affected by strikers at Bloomington, Ill., and Slater, Mo.

### IRISH EAGERLY ANSWER CALLS TO CHECK REVOLTA

(By the Associated Press)  
DUBLIN, July 8.—There has been a remarkable response to the provisional government's call for volunteers to assist in putting down the republican revolt. In this city alone, nearly 2,000 men have been enrolled for military service.

Substantial progress in the campaign being waged against the republicans by the national forces in the province is indicated in today's official communique.

Frenchman has invented a women's dress fabric from leaves of the banana plant.

### AFTER TOO LATE GIRL AGREES TO DIVULGE FATHER

Ethel Bassinger Startles Crowded Court Room by Her Willingness.

### TESTIMONY EXCLUDED

State Rests Reluctantly After Vain Endeavor To Get Answer.

At 3 o'clock this afternoon jury-men in the T. J. Bassinger murder case were still wrestling with the seemingly hopeless problem of how to reach a verdict. They had been deliberating on the case 10 hours. A semi-official report from the jury room at mid-afternoon said the situation was "discouraging but not impossible". Since 10:30 this morning the vote has been 11 to 1 for conviction, it is reported. The jury will be held today and probably tomorrow with the hope that something may develop.

After being locked for five and a half hours, the jury in whose hands rests the fate of T. J. Bassinger, 57, charged with murdering the new born babe of his unmarried daughter, Ethel, 22, at Allen on April 1 this year reported to District Judge J. W. Bolen at 10:30 this morning that its vote stood 11 to 1 for conviction.

Judge Bolen ordered the jury to continue balloting until a verdict had been reached.

Since arguments closed at 5 o'clock Friday, the jury has been laboring upon details of the case. Its first ballot, late Friday, was 10 to 2 for conviction. On the next ballot, one of the dissenting jury-men switched over, it was said.

Attorneys for the state closed their case yesterday reluctantly. In spite of their persistent efforts, they were unable to induce Ethel Bassinger, who had been ordered to the county jail earlier in the day for contempt of court, to reveal the identity of her dead child's father.

**Girl Ready to Talk.**  
When the jury had retired to deliberate, Ethel Bassinger was called into the court room and astounded the immense audience by readily consenting to speak the name which the state had tried determinedly to wrest from her.

Judge Bolen ruled this testimony could not be admitted since both sides had closed and the jury had withdrawn.

"When did you decide to tell who the child's father is?" Judge Bolen asked the girl.

"Today," she answered calmly. "Why didn't you let somebody know you had changed your mind?" the court inquired.

To this question Ethel returned an unintelligible answer, refusing to explain why she had defied all efforts to obtain it from her before.

She was remanded to the county jail upon a 60 day sentence for contempt of court.

Throughout the trial, attorneys for the state insisted upon the "extreme penalty" for Bassinger, with the defense pleading that only circumstantial evidence had been produced and that this was not strong enough to warrant a verdict of guilty.

### TAMMANY CHIEF LEAVES ESTATE TO HIS WIDOW

West Palm Beach, Fla., July 8.—The will of the late Richard Croker, the Tammany leader, who died recently in Ireland, filed here today leaves all of his property except \$10,000 to his wife. The \$10,000 bequest goes to his daughter Florence, who is referred to as only child who retained any affection for him. The will was filed in Ireland in 1919.

**To Conquer Will.**  
JACKSONVILLE, Fla., July 8.—J. T. Crawford of this city, counsel for Richard Croker Jr. said today upon learning the will of Richard Croker at West Palm Beach, that he recently filed a caveat in the Palm Beach county court, which is virtually a notice that the will is to be contested.

Planet Venus moves around the sun at an average speed of 22 miles a second.

# FINANCIAL STATEMENT AND ESTIMATE

Statement of Fiscal Condition of the City of Ada, County of Pontotoc, State of Oklahoma, for the Fiscal Year Beginning July 1, 1921, and Ending June 30, 1922 and Estimated Needs for Current Expenses for Fiscal Year Beginning July 1, 1922 and ending June 30, 1923.

To the County Excise Board, County of Pontotoc, State of Oklahoma.

Gentlemen: Pursuant to the requirements of Section 2 Chap. 226, Laws of 1917, we submit, herewith, for your consideration the within statement of the fiscal condition of the City of Ada, County of Pontotoc, State of Oklahoma, for the fiscal year beginning July 1st, 1921, and ending June 30th, 1922, together with an itemized statement of the estimated needs thereof for the fiscal year beginning July 1st, 1922, and ending June 30th, 1923.

The said Statement and Estimate was duly published as required by law in a newspaper published in said city.

Dated at Ada, Oklahoma, this 3rd day of July, 1922.

W. H. FISHER,  
Mayor and Commissioner of Public Justice and Safety  
J. C. DEEVER,  
City Clerk, and Commissioner of Accounting and Finance

## Ty Cobb Gives Sisler Hard Race for Honors in Batting

## GEORGIA PEACH IS FANS' IDOL AFTER SPECTACULAR JUMP

Seventeen Hits in Seven Games Gives Lean On St. Louis Star.

(By the Associated Press)  
Cyrus Raymond Cobb today is making his bid for the batting leadership of the American league, with the prospects of giving George Sisler the St. Louis star, a desperate fight. Within a week, the noted Georgian batted his way from sixth to second place in the list of leaders for an average of .391; just twenty-four points above his mark of a week ago. The Detroit leader's remarkable batting resulted in slashing out seventeen hits in his last seven games, while the best Sisler could do was nine in five games. Sisler, however, is entrenched in the lead with an average of .430. The figures include games of Wednesday. Sisler also is clinging to the lead in base stealing, with twenty-seven, while Kenneth Williams, the 1922 home run marvel, is second with twenty-three. Sisler smashed out his twentieth homer and is being trailed by Walker of Philadelphia, the runner-up, with seventeen. Ruth, Heilmann of Detroit, and Miller of Philadelphia each have connected with thirteen.

Hornsby Leads Gowdy.  
Rogers Hornsby, the St. Louis star with an average of .390 is twenty-three points ahead of Hank Gowdy of Boston in the National league batting race. Gowdy is hitting .367, with Miller of Chicago third with .350.

Hornsby is on even terms with Williams, his St. Louis rival, in home run hitting, and is tied with Southworth of Boston for second place honors in base stealing with twelve. Cary of Pittsburgh continues to lead in this department with eighteen.

A streak of consistent hitting has placed Lamar of Toledo as a contender for the batting leadership of the American Association, according to figures compiled today. Lamar, fourth in the list a week ago, batted his way into second place by smashing out nine hits in his last seven games. Giving him an average of .358. The averages include games of Wednesday.

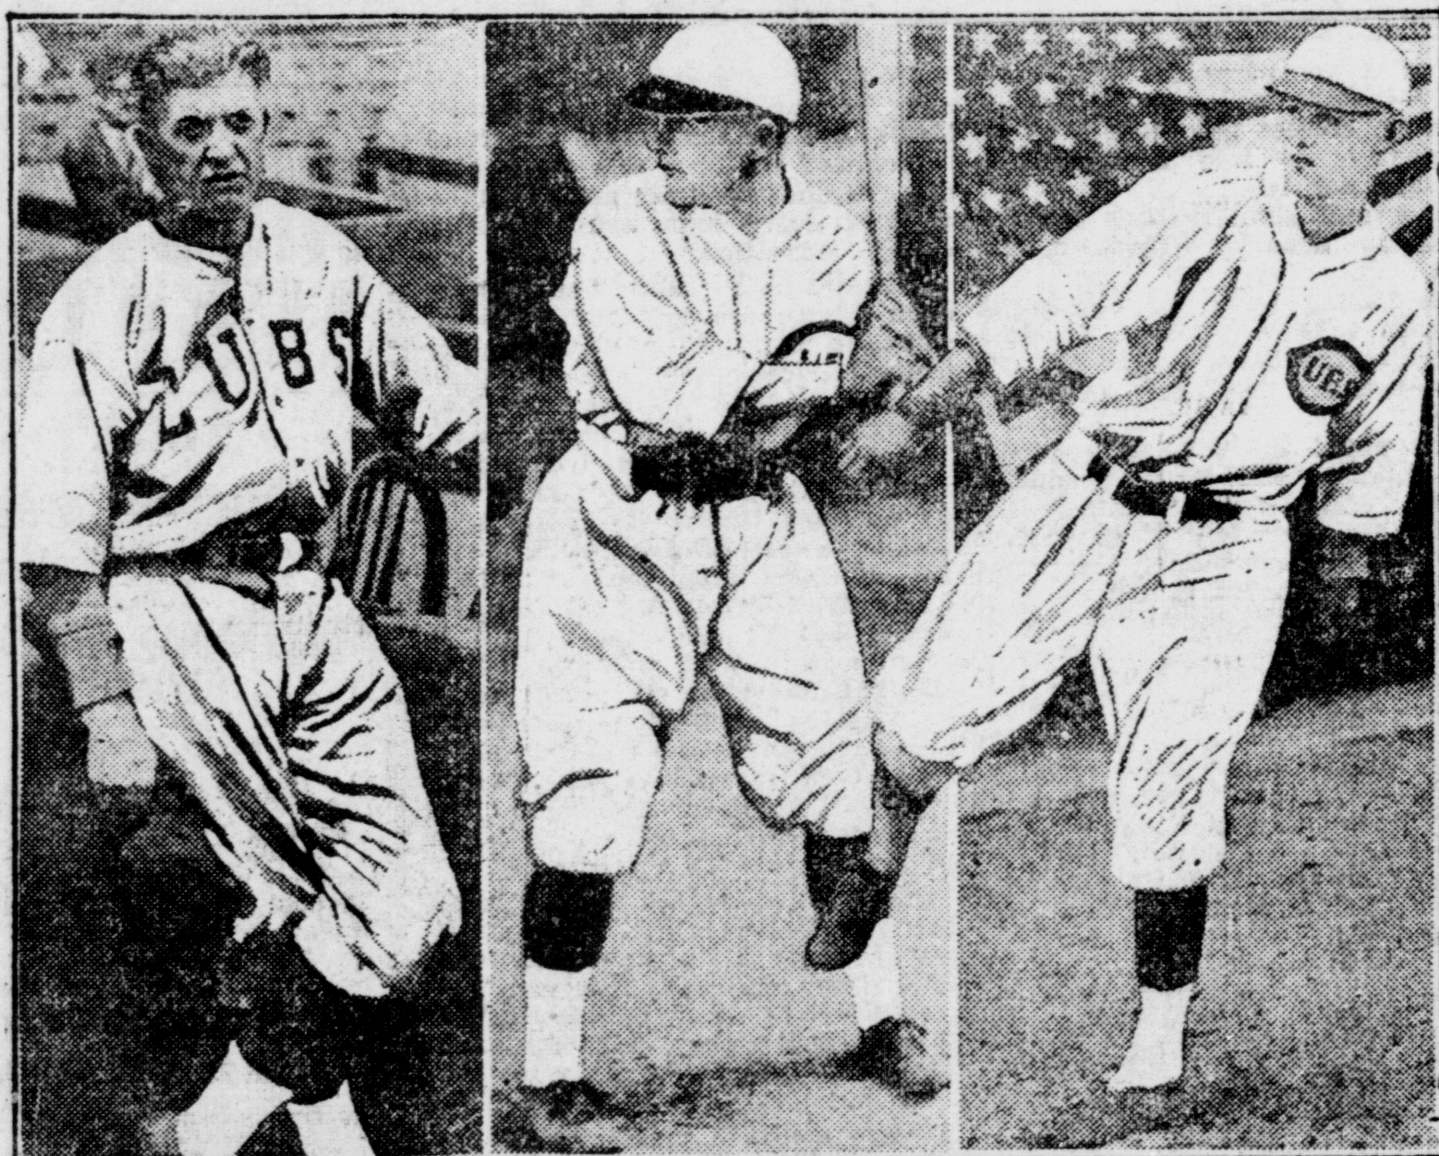

Bunny Brief of Kansas City, by bagging five more homers in his last eleven contests, jumped to the front in home run hitting with a total of nineteen. "Reb" Russell of Minneapolis is second with fifteen, and Becker of Kansas City third with a dozen.

Mathews Best Stealer.  
Mathews of Milwaukee is showing the way to the base stealers with fifteen, with Baldu of Indianapolis second with fourteen.

With an average of .408, Manush of Omaha is threatening to dislodge Fisher of St. Joseph from the lead in the scramble for batting honors of the Western league. Fisher is blazing the trail with an average of .422, with Carl East, the heavy hitting Wichita star, clinging to third place with .393. The averages include games of Monday.

The Tulsa club is the class of the league in home run hitting as three of its players have connected with a total of forty-seven. Davis is setting the pace with twenty,

## CURBS CLIMB FROM RUT AND NOW DEMAND WATCHING

Three of the men who are making the Cubs a winning outfit. Grover Alexander, left; Arnold Stutz, center and Tony Kaufmann.

After apparently going to pieces on the rocks of demoralization the Chicago Cubs have turned over a new leaf and just now are giving the National leaguers something to talk about. They

while Bennett is second with fourteen. Lamb is tied for third with Washburn of Wichita, each having connected with thirteen.

Hemingway of Sioux City is in no apparent danger of losing the lead in base stealing. He has stolen twenty-five, while Elsh of the same team is his nearest rival with seventeen.

Tucker Best in South.  
Tucker of New Orleans is the new batting leader of the Southern Association for players competing in fifty or more games. He is hitting .360, with McMillan of Memphis the runner-up, with .346.

Schulte of Mobile, who led the race for several weeks, is hitting .383, but he has only participated in forty-seven games as against seventy-five for Tucker.

Connolly of Little Rock continues to lead in home run hitting with eight, while Williams of Mobile and Darrett of Little Rock are tied for second with seven. In base stealing Henry of New Orleans is showing the way with 26, with Stewart of Birmingham second with twenty-five. Silva, also of Birmingham, is third with twenty-three.

ED SPEARS IN THE CITY FOR DEPARTMENT  
Hon. Ed Spears, secretary of the State Board of Agriculture, was in the city today in the interest of better agriculture in general and weevil eradication in particular.

Mr. Spears is formerly of Durant and knows this section of the state. He as well as many others in the department are putting much effort and time on keeping down the ravages of the boll weevil and are meeting with success.

He will leave this evening or Sunday morning for Durant.

The domestic fowl is not mentioned in the Old Testament.

are giving the White Sox a battle royal for the patronage of the Windy City fans. The brightest spot in the team's recent showing is the return to form of Grover Alexander after an off spell. The

relief pitching of young Tony Kaufmann and the slugging of Arnold Stutz are other reasons for the team's comeback. Bill Killefer is drawing praise for his valiant work.

GOLF FANS ARE URGED TO HELP BIRD REFUGEES  
(By the Associated Press)  
WASHINGTON, July 8.—Golf courses as bird sanctuaries is the newest "sport" wrinkle introduced by the U. S. Department of Agriculture, which urges clubs to equip their grounds as refuges. The move promises success, says a department circular, at little work or outlay, and golf grounds offer ideal bird communities.

The broad expanses of short grass on the fairways, it is said, furnish excellent feeding grounds for robins, meadow larks, starlings, flickers and killdeer. In rougher spots there is an abundant insect population as food for the birds. Most courses have water hazards at which the visitors could bathe or drink, and many courses are already protected from trespass and are relatively free from bird enemies.

Protection, food and water are thus afforded, and the department urges the supply of nesting boxes or other nesting places. Such beautiful and useful birds as the purple martin, blue bird, house wren, tree swallow, flicker, white breasted nuthatch and chickadee, will occupy such houses, and many other varieties of small birds can thus be attracted.

In the future, then, it may be expected, that golfers going the rounds of courses so equipped, may have cause to bless the birds for doing away with the buzzing mosquito or other swarms of flying, biting, stinging pests.

Denmark's kings have been named either Christian or Frederick for more than 400 years.

By Norman E. Brown

Over in Paris  
French sportsmen are hailing as a hero Frankie O'Neill, a diminutive American jockey. For the other day O'Neill rode a horse under the wire ahead of the field for what was O'Neill's three-thousandth victory with thoroughbreds. That victory was one of six the rang up in two days of riding.

O'Neill is riding for A. Kingsley Macomber, going to that stable when Macomber bought most of the horses of William K. Vanderbilt when that millionaire died. Frankie carried the black and white of Vanderbilt's stable for many seasons.

According to recent cables O'Neill has won forty-five races so far this season. All of which indicates that Mr. O'Neill deserves mention in the annals of the running horse game.

## WOLF CLUBS TO HOLD SWIMMING CARNIVAL HERE ON WEDNESDAY

150 Youngsters Prepare for Swimming Tests and Land Races.

Wolf Cubs of Ada, estimated at 150 in number, will participate in an athletic tournament and swimming carnival at Glenwood pool Wednesday afternoon, July 12, beginning at 3:30, Harry W. Miller, scout executive, announced Saturday.

Cub packs from all schools in the city will engage in the events, either directly or through their representatives, selected from among the Cubs.

Two classes of Wolf Cubs will be represented. The first class will include boys eight and nine years of age. The second class will be for boys ten and eleven years.

Athletic events will include a 50-foot sack race, an egg race, snail race, relay races, and 50-yard dash.

Swimming events will include a speed test for 20 yards a distance swimming test, a distance diving test, an endurance test under the water. A water relay race also will be staged.

Executive Miller, in his announcement today, asked all wolf cubs in the city to meet in their respective places on Monday evening at 8 o'clock to choose cubs to represent them in the various events. This will be the first complete athletic tournament ever held here for the cubs.

## Independents Will Rest Sunday; Next Game Is Announced

Ada Independents will rest Sunday. For the first time since the season opened, players of Ada's fast amateur team have no game. Manager Green stated today the reason his team was not playing was that he could not secure a team good enough to afford local fans the exhibition of baseball that he wanted. Healdton will be here in a week or two, it was said today. This will be a game in which interest will be high as Ada lost a game to that club several weeks ago on Healdton's field. It is expected that no hard games will be scheduled for the next two weeks as Paul Waner and other leaders of the club will be at the national guard camp at Ft. Sill for 15 days beginning Monday.

Let a News Want Ad get it.

THE PRINCE OF PEACE:—Unto us a child is born, unto us a son is given; and the government shall be upon his shoulder, and his name shall be called Wonderful, Counsellor, The Mighty God, The Everlasting Father, The Prince of Peace.—Isaiah 9:6.

## WHY HE FAILED.

A current magazine carries a story written by a man who permitted many brilliant opportunities to pass him by and who now in his declining days is struggling to get even a slight foothold and retrieve a small fraction of success. He is very frank about his failure and blames none but himself. He was in his earlier years associated with men of no more ability than he himself possessed, but who have since reached the top rungs of the ladder of success. His greatest fault was in not sticking to any position. In a few months he would either decide that his employers did not fully appreciate his services or that there was a job somewhere else suited him better and away he would go. He also had too high an opinion of himself and sometimes quit because his pride was touched by some suggestion from some one who knew more than he did. He had a knack of getting positions and for many years moved about from place to place, covering most of the western and southern states, finally winding up in California. When age began to creep on him his services were not so much in demand and he found life difficult matter. He is now well past 60 years of age and probably has only a few more years to live. All of his real opportunities have passed never to return and he is making a hard battle against heavy odds. His story is one that every boy just entering on his life's career might read to advantage, for it applies to cases we see around us every day.

According to figures compiled by some New York organization, Oklahoma ranked thirty-sixth among the states in the matter of education some seven or eight years ago. While it is very doubtful if those figures were correct, it is a safe bet that a thorough examination of conditions today would tell a different story. Not only have the tax payers been liberal in the matter of providing funds, but the personnel of the teaching force of the state has greatly improved. The fact that about 10,000 teachers and prospective teachers are enrolled in the six teachers colleges of the state this summer beside many more in the University and A. and M. college proves that no state has a more progressive corps of teachers than Oklahoma. They believe in keeping fully abreast of the times and the educational interests of the state will improve accordingly.

To keep in the public eye is a job which keeps the individual seeking such a place busy. The public very quickly loses interest in a man who is not constantly doing something to attract notice and as quickly turns to some new object of interest. A great deal depends on the choice of methods. A fellow who makes a mistake here is as bad off as the one who has already been retired from public notice. Here is where the press agent shines. If he can succeed in getting plenty of space for his man or organization in the papers things may rock along nicely for a long time. Baseball furnishes a good example of the fleeting of notoriety. The hero of today gives way to another tomorrow and the idol of the bleachers of this season may be the reverse next year. The public forgets quickly and it is an art to keep its memory refreshed.

Not many years ago there was a surplus of doctors. Medical schools were turning them out in droves and the profession was decidedly overcrowded. Now the nation faces a shortage in this fraternity. Requirements have been raised by the medical schools and the various states until now it costs several thousand dollars to get a medical education besides four or five years of study. The result is that the colleges are no longer crowded and the annual crop of graduates is small. On the other hand the profession has done good work in instructing the public in the elementary principles of hygiene and sanitation and found ways of controlling epidemics to an extent that health conditions have greatly improved with a corresponding falling off in the need of the services of the physicians.

A man with a turn for giving advice advances the opinion that there is no special need for people to die around the allotted score of three score and ten. He holds that it is mostly a matter of fear that kills most people. They have been taught that they will die around that age and with this idea fixed in their minds they generally do, whereas, if they kept it firmly in mind that they were good for quite a few years beyond that they would live accordingly. In other words, just make up your mind that you are going to live a full century or more and you will be certain to do it. The idea is to quit being scared and life will be lengthened accordingly. Very pretty theory but we shall have to wait a few years and see how its author will fare.

Many a fight has been pulled off when neither participant wanted any rough stuff but both felt that public might make unkind remarks about their courage unless they proved it with their fists or some weapon.

## HELD UP!

## The Form of the Press

Courting and Concentration.  
(Lawton Constitution)

It has very often been our fortune at the theater, on the street and in the train to see some perfectly lovely specimen of womanhood all wrapped up in what some perfectly insignificant looking little man is saying to her.

And from the point of view of a bachelor, and not being crippled, we have often wondered how these people "get away with it," the way they do, asks Wroe's Writing.

So the other day we asked one of our married friends how they do it. His explanation was very simple. It's simply nothing more or less than concentration.

We understand that W. L. George has written volumes on this fascinating topic of understanding and out guessing the other sex, but after all it probably boils down into our friend's assertion that it is all a question of concentration.

The puny, insignificant, little chap knows that he can't win out just on his "Bronze Apollo" looks and he puts on a campaign of concentration which finds expression, we suppose, in telling the girl just what she wants to hear and he thereby becomes indispensable to the woman in question.

And while we are on that question of concentration we are reminded that one of the most successful salesmen that we know in any line, gets practically all of his business from less than ten accounts.

He has found that when he has won the unreserved confidence of a buyer, in his honesty and ability that he can get far more business by concentrating on this man and his needs, than by going far more afield and spreading his efforts.

There is, of course, a very definite advantage in having a relatively large number of customers and that is the insurance that's afforded against a loss in sales. For where the number is large, when a customer is lost the percentage of sales is not so heavily affected. But we have seen many a good salesman handicap his efficiency by scattering his efforts over so wide a field of prospects that his prospects forget him between calls. Everytime he called on a prospect, he had his work to do over again.

If such there be, among our readers, we commend to them the example of the beautiful lady's attendant or the star salesman.

Your Pocketbook.  
(Hugo News)

Even in hot weather you are interested in money—how to get more dollars, how to get more out of each dollar.

It costs you \$145 now to buy what cost \$100 in July, 1914. This is the latest report of the National Industrial Conference Board, which figures that a wage-earner's cost of living is 55 per cent higher than pre-war.

Some things have dropped in price more than others. The board, striking an average for the whole country, finds that prices are above pre-war in these percentages: food 39, shelter 5, clothing 56, fuel and lighting 74 and sundries or incidentals 74 per cent.

You note that prices are out of balance. There's no equilibrium. That's why business revival is coming faster in some industries than others. It's like a watch with each wheel going at a different speed, the whole thing keeping "bad time."

A shotgun that costs 90 cents in Germany enters our country and is

sold to a consumer for \$15.

A bird-cage sells for \$1.20 in Germany, crosses the ocean, and an American goes into a store and pays \$11 for it.

These and similar cases are observed by Senator Watson of Indiana.

The buying power of our dollar seems to vary with the parties that are doing the buying, even making allowances for the costs of distribution.

How about the German workman who produces these cheap products? He is working for low wages—living on the equivalent of 40 cents a day in American money, according to Congressman Ira C. Copley, who recently, has been touring Germany.

You ponder all these facts, and are apt to come to the logical conclusion that something is wrong with the system of money, since the dollar is like a yardstick that measures three feet in one place and three inches in another.

Considering its peculiar and uncertain behavior, it is small wonder that money is hard to catch as a greased pig.

## TEST OF HIGHER EDUCATION MADE CLEAR IN SPEECH

(By the Associated Press)

BOSTON, July 8.—The tests by which higher education in the United States can meet the legitimate demands of democracy were outlined last night by Dr. Henry W. Holmes, dean of the Harvard University Graduate School of Education in addressing the convention of the National Education Association.

The colleges, he asserted, will meet these demands, first, if many types of education can be provided; second, if the economic bar can be lowered; and third, if selection can be made without discrimination in favor of those of any particular type of mind.

"Democracy," said the speaker, "requires of education more than a mere defense against the evils of illiteracy. It demands the development of positive loyalty to common ideals that are understood and freely adhered to. Does this mean that the common resources must be used to give every man and woman a college education?"

"Mental and educational tests show that there are limits beyond which it is unprofitable to educate many thousands of boys and girls in the schools as they are now constituted. On the other hand, higher education may be given with great profits to many who do not now receive it. There is an economic selection at work which the colleges, even those maintained by the state, cannot wholly overcome; but at least they ought to counteract it. This is a problem in the administration of public funds and private benefactions for the education of those who lack the means to support themselves through college, but have the ability to meet the intellectual standards in order to receive greater numbers."

"The last thing the colleges ought to do is to lower intellectual standards in order to receive greater numbers. They ought to seek rather to equalize opportunity on the economic side while they hold standards high."

It is a mistaken policy, Dr. Holmes asserted, which insists that education of collegiate grade shall be open only to "those of bookish mind."

"There is probably a basic factor

## DAUGHTER HAD TO HELP MOTHER

Now Can Do All Her Housework Alone Because Lydia E. Pinkham's Vegetable Compound Helped Her

Jasper, Minn. — "I saw in the paper about Lydia E. Pinkham's Vegetable Compound and took it because I was having such pains in my stomach and through my back that I could not do my work. I had tried other medicines, but none did me the good that your Vegetable Compound did. Now I am able to do all my work alone while before I had my daughter staying at home to do it. I have told a number of friends what it has done for me and give you permission to use my letter as a testimonial."—Mrs. JESSE PETERSEN, Route 1, Jasper, Minn.

There is no better reason for your trying Lydia E. Pinkham's Vegetable Compound than this—it has helped other women. So if you suffer from displacements, irregularities, backache, nervousness or are passing through the Change of Life remember this splendid medicine. What it did for Mrs. Petersen it may do for you.

The Vegetable Compound stands upon a foundation of nearly fifty years of service.

of general intelligence," he continued, "without which no course of collegiate grade can be successfully undertaken, but it is doubtful if our psychological examinations really distinguish and test this factor."

Rockefeller 83 Today.  
(By the Associated Press)

TARTYOWN, N. Y., July 8.—John D. Rockefeller was 83 years old today. Friends said his birthday celebration would be unusually quiet because of the recent death of his brother, William Rockefeller. For several years a band has gone from here to serenade him in his Pocantico Hills home. His program called for a game of golf in the forenoon and an automobile ride in the afternoon.

## BILIOUS CHILDREN

Black-Draught, Long in Successful Use, Praised by an Arkansas Mother, "Soon Does Its Work."

Marmaduke, Ark.—Speaking of Theford's Black-Draught, which from long use in her household has become regarded as "the family medicine," Mrs. Mary E. Hill, of Route 1, this place, says:

"When the children get bilious, I give them a couple of good doses, and when we have sour stomach, headache, or any liver or stomach trouble, we use Black-Draught. It is an easy laxative, and soon does the work. I certainly think it is one of the best remedies made."

Black-Draught acts on the faded liver, gently, but positively, and helps it in its important function of throwing out waste materials and poisons from the system.

In thousands of households Black-Draught is kept handy for immediate use in time of need. Prompt treatment often is half the battle, and will often prevent slight ills from developing into serious troubles.

Its well-established merit, during more than 70 years of successful use, should convince you of the helpful effects obtainable by taking Black-Draught for liver and stomach disorders. Get a package today, and keep it in your house. See that the package bears the words, "Theford's Black-Draught." NC-141

### Photographer Held On Fraud Count in Picture Deal Here

Deputy Sheriff Henry Whitson returned this morning from Alva with R. N. Fryar, a photographer, charged with obtaining money under false pretenses.

The defendant is alleged to have taken pictures of students at East Central College here and to have failed in delivering them according to his contract. Officers said they were informed he had taken pictures at practically all colleges in the state. Whitson said today that Fryar had informed him that the non-delivery was caused by a delay in a shipment of photographic and printing materials, billed to him.

### Smart Knicker Costume For Wear in the Garden

By MARY BROOKS PICKEN

NOWADAYS one need not hesitate about adopting a costume in which the skirt is replaced by comfortable knickers, provided this costume is intended for wear when unrestricted freedom is needed for some particular out-of-door activity. Surely garden work is one of the summer activities that is deserving of special costume suggestions. For, at this time of year, there is a tendency to neglect the details that were started with so much enthusiasm. And what could be more effective in again rousing interest in garden work than a suit of this type, fashioned of cool and restful variety and smartly decorated with black peasant embroidery so lovely that it would make even an afternoon costume? A pleasing feature of the overalls is its length, which is sufficient to extend well down over the knees, thus providing a distinct contrast to the design. The overalls are in its favor are the black shoes and the collar, which is at the back, which the arms and neck from

### Japanese Design Done In Cretonne or Linen

By MARY BROOKS PICKEN

AN unusual fabric design calls for a distinctive arrangement of line, both of which are evident in this cretonne or printed dress of yellow, brown, and black.

Conspicuous designs do not bear much "cutting up" or decoration, hence the unbroken line from neck to hem and the inconspicuous facing used in finishing the neck, sleeve, and side front edges. A deep tuck is used at the side skirt to give weight and to intensify "line" at this point.

If material of a less prominent design is used for this type of dress, a black ribbon binding may be used to finish the neck, side waist, front, and sleeves.

The chief interest is centered at the side, where the black velvet sash holds the side belt in position. This sash extends from the right side seam at the waist line across the back and around to the left side back, where a loose, drooping bow is made.

The hat is black with a long right side and is ornamented on the left with a smart yellow coque pompadour that harmonizes with the tone of yellow in the dress.

Do You Know New York after dark

Where all men look like millionaires and most of them four-flushing? Where the women look like society queens and half of them are gold-digging. Would you like a peep at the real thing, where a boy, four-flushing, leads his guests (overdressed women) in a wild, revelry, singing: "Hail, Hail, the gang's all here"—on Xmas Eve, while his poor old mother, dispossessed, worn, weary and heart-sick, sits at the little church organ and plays—"Where Is My Wandering Boy To-night?" Kick? Tears? Heart punch? One of the most poignant situations ever put on the screen, in the picture beautiful—the picture of smiles, tears, pathos, sentiment, to be shown on — at —

Where is my wandering boy tonight?

They rest, play and romp in Hood Shoes!

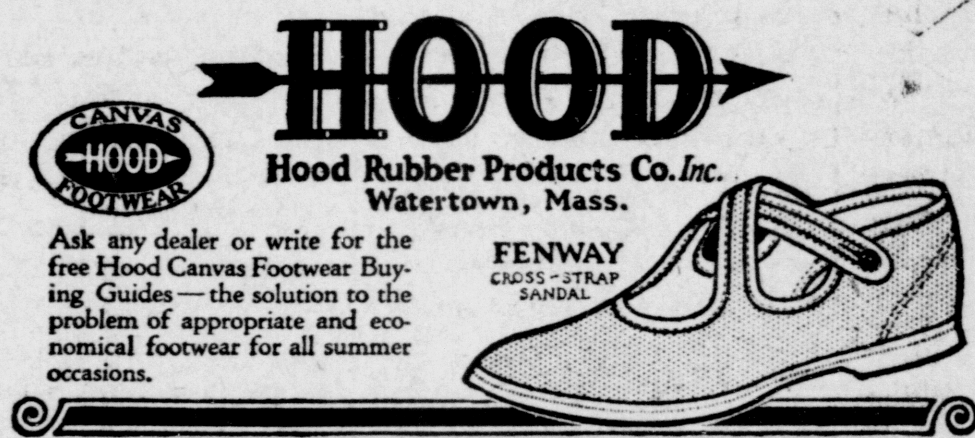

SUMMERTIME is Hood Shoe time! Off with stiff leathers; on with cool, comfortable canvas! Leisure hours and Hood Shoes are natural companions.

If it be on the porch with a favorite book, on the lawn with needlework, or a stroll on the sands, Milady will this summer want to wear the Lenox Sport Oxford.

For those who love the more stren-

uous life, the Klaykort is fast and durable; built to give you foot comfort and freedom in an extra set of tennis or other outdoor game requiring a specially built shoe.

The children, too, must have their Fenway Sandals. To get the proper amount of outdoor exercise, their growing young feet need the extreme pliability of this most popular shoe, especially built for children.

What hinders people from attaining spiritual liberty?—Rowena Moore.

What are some of the blessings of freedom?—Thelma Roberts.  
How can we preserve civic freedom?—Bernice Roach.

Business.  
Benediction.

Christian Science.  
Services at 11 a. m. at 111 North Broadway. Subject: Sacrament.

Golden text: Psalms 51:17. The sacrifices of God are a broken spirit: a broken and a contrite heart, O God, thou wilt not despise.

Meeting Closes Sunday.  
There are to be only three more services in the meeting being conducted at the Church of Christ on East Main street.

The meetings have been largely attended and a number of conversions are reported.

The subject of the sermon to-night will be "Excuses", and Sunday night the theme will be "How to Reach the Celestial City." The invitation to everyone to attend these closing services. There will be the regular 11 o'clock service Sunday morning, but no subject for this hour has been announced.

President J. P. Sewell of Abilene Christian college is doing the preaching and has expressed himself as delighted with the town of Ada and as much pleased with the church with which he is associated in this meeting. He will have Sunday night after the close of the meeting for his home in Texas.

Presbyterian Church.  
Come with us to the City Hall Sunday.

9:45 Bible school. Hugh Norris, superintendent.  
At 11 a. m. the pastor will preach on "Our Open Door." At 8 p. m. "Let the Dead Bury Their Dead."

A full attendance of the finance committee at the manse Sunday 4 p. m. is requested to make final plans to start the canvass for funds for the new building at once.—E. O. Whitwell, pastor.

Oak Avenue Baptist Church

Inasmuch as we were practically rained out last Sunday we earnestly urge every member that can possibly do so to attend all services next Sunday. Let's not let a little rain keep us away. Let's begin to make preparations for our revival meeting to begin the second Sunday in August. Let's pray and plan for a great meeting.

A cordial invitation is extended to every one to attend all of our services.

The pastor will speak Sunday morning on "The Power of a Witnessing Life." Theme for evening service, "The Value of the Soul and the Danger of Losing It."

Sunday school at 9:45 a. m. Senior B. Y. P. U. at 7:30 p. m. Preaching at 11 a. m. and at 8:30 p. m.—J. H. Page, pastor.

Oak Avenue B. W. M. S.  
Monday is our regular time for Bible study. Devotional begins promptly at 2:30. Come and study with us.

Church of Christ Young Peoples Meeting  
Leader: Nolan Hall.  
Prayer: Parker Floyd.

Give the history of the Church of Christ of Ada.—Denton Floyd.  
Excuses.—Callie Britt.

A reason for the Christian hope.—Maude Sutherland.  
The new birth, its nature and necessity.—Joy Pegg.

Our position, its safety and strength.—Bernie Shipman.  
Sowing and reaping.—Charlotte German.

The Church of Christ, its creed and its condition of membership.—Zelma Hays.

The Lord's additions.—Raymond Wallace.

## MAKING WAR ON BOLL WEEVILS

Farmers in All Parts of Pontotoc County Fighting For Cotton Crop.

(By Byron Norrell)

The campaign against the boll weevil has been carried on with vigor this week, beginning with Hardy Dial's talks and demonstrations of his method at the picnic and continuing 3 days with Mr. Dial and others in the field to encourage the farmers to keep up the determined fight already so well begun. There is widespread interest in the Dial drag. They are to be found all over the county and more are being made and put into use every day.

Friday I made a trip to Center and Lanham with C. H. Rives, R. W. Simpson and J. W. Balthrop. Mr. Balthrop was the most important member of the team since he is using the drag and is well pleased with the results thus far obtained. He could talk from experience. A fair sized crowd gathered at Center and as this was strictly business none of us attempted to make a speech, but we handed out a supply of circulars describing the drag and with cuts showing its construction. Some were already using it and others said they are going to begin at once. S. A. Dame and others are picking up the infested squares and burning them in hope of reducing the next crop of weevils.

En route to Lanham we stopped at J. D. Gaar's farm. In a patch that had not been dragged for a week or more we found only one or two in the part that the drag had gone over. At Lanham school house five or six farmers gathered and we examined the field of Claud Roles where the drag had been used. A few punctured squares were found. L. F. Tully has a field, a short distance from the school house. His cotton is late and he has not yet begun to drag it. We picked up a number of squares here. On the way home we stopped at W. A. Stanford's, a mile southeast of Center. He has the most promising cotton I have seen this year. The stalks are large and loaded with squares, blooms and small bolls.

Mr. Stanford said he had dragged the cotton twice. When he first started the weevils were thick but he had got most of the infested squares with his drag. We found a punctured square here and there but he was busy loosening the surface of the middles preparatory to another dragging. He expects to get most of the squares on this round. He says he expects to keep up his dragging once or twice a week throughout the entire month and also August, if necessary.

Thursday afternoon I dropped off at Allen Blackburn's field six or eight miles east of Ada. He had two drags running and they were putting the middles in fine shape. His cotton was late and he had found no weevils but was taking no chances.

We did not find a live weevil on our round of Friday, but there were plenty of young grubs in the squares especially where the fields had not been dragged. Evidently the old weevils did after laying their eggs, and everything depends on getting rid of them.

Peculiar customs of the Bible land.—M. L. Emerson.  
Baptist Church.  
Group No. 2 in charge.  
Subject: Bible study meeting. John 1:1-18.

Leader: Lillian Todd.  
Scripture reading.—Ruth Collins.  
Introduction by leader.

The purpose of each of the writers.—Mr. Williams.  
The prologue of John's gospel.—Stella May Ray.

The eternity of Jesus.—Mrs. Evans.  
Jesus the agent in creation.—Jesus is the source of life and light.—Mr. Hynds.

Quartet: Mr. Hynds, Stella May Ray, W. H. Page and Bersie Holliday.

The relation of John the Baptist to Jesus.—Bessie Holliday.  
The relation of the people in the world to Jesus.—Lillian Todd.

The incarnation of Christ.—Wm. H. Page.

TO THE PUBLIC

We are advised that parties are soliciting sewing machine repair work and representing themselves as being agents or employees of the Singer Sewing Machine Company.

You are hereby warned not to give them work under our name as we have no house to house solicitors. Should one call please phone us at once, phone 953.

Albert Bounds, Mgr.  
Singer Sewing Machine Co.

113 West Twelfth St.

## MIDGETS SLUMP INTO PERILOUS PLACE BY LOSS

The league leading Midgets were given a sound beating Friday afternoon when they were successfully and decisively outclassed by the tall-endler college players in a double-header, losing the first game 5 to 0 and the second 3 to 1. Errors, as usual, were featured.

Toliver, the leading college moundsman, hung up the second no run, no hit game in the history of the league when he pitched masterful ball during the first game. It was for five innings, however. Page, Midget recruit, recently hung up a no run, no hit game against the slugging Legionnaires.

Morrison was not given any support in the first game, and his pitching was not tight enough to make the game interesting. This was the first victory for the college men. In the second game P. Wanner was given miserable support in the field and at batting. He lost while Toliver continued to pitch a good game, connected with support from his men, and handed Coach Thompson two wins for one day.

This double defeat, connected with a tie game played Thursday, leaves the Midgets in a dangerous position of getting cheated out of first place, which they have held since the opening of the league.

NIGHT MARSHAL KILLED AND MURDERERS FLEE  
(By The Associated Press)

MANITO, Ill., July 8.—Posses are searching the country side today for four men seen to run from the outskirts of the city after the body of Night Marshal Martin Grederick was found on the sidewalk in front of a restaurant here early this morning.

The body was discovered by a passing workman, lying in a pool of blood. A bloody trail along the sidewalk showed the place where the marshal had either dragged himself or had been dragged after he fell mortally wounded. The marshal's gun was in his holster and it is thought he was shot when he surprised robbers who intended to rob Manito stores.

Foot prints of the men have been staked off and are under guard while officers await bloodhounds from Monmouth.

More than 33,000,000 miles of wire are in use in the telephone systems of the United States.

Only 2 percent of the population of Kingston, Jamaica, are white.

of the second crop now in the form of grubs. If this crop can be held down there is no doubt about a fair yield of cotton. All who have experimented by cutting the grown weevils in hot loose dirt know that the insects cannot stand much of this and that the punctured squares dry up quickly when in the hot dirt exposed to the sun.

The crops of Pontotoc county never looked more promising than they do now. Farmers have worked hard and kept up well with their work. Corn looks fine and there is every indication of a good yield.

Fire was discovered about 50,000 years ago.

Lovely odds and ends at bargain prices make the daintiest of frocks for children

BARGAINS IN REMNANTS

Such fun to make! Just a snip or two of the sheers—a few swift stitches—and that bewitching bit of bright-colored ging-ham or fairy soft batiste, which you can pick up for almost nothing at our remnant counter, becomes a dainty new frock for your baby!

Dress 3581  
Trans. 10734

A Butterick Pattern with Deltor tells you just how to do it—how to cut without wasting an inch—how to put it together in the twinkling of an eye—how to add just the little French touch which gives a child's frock that charming picture quality.

Dress 3308  
Trans. 10817

Come in to-day and look over our stock of tempting odds and ends at still more tempting prices. The new Butterick Quarterly at our pattern counter will give you dozens of fascinating suggestions for using these lovely bits in your baby's Summer wardrobe.

### WHY YOUR HEAD ACHES

Headache, like earache, is a symptom rather than a disease; remove the cause and we have little further trouble from the headache. Headaches are most frequently due to eyestrain, and are the cause of the only habitual headache in children.

Serious results from neglected eye strain appear in adult life rather than in children. But the child with a constant headache does not exercise or play, or have the appetite or the general health of a child in normal health.

The wonderful relief felt after using properly fitted glasses is argument enough for the examination of the eyes by a skilled Optometrist in every case of headache.
